BUILDING HIGHLIGHTS

- Originally constructed in 1916 for the STETSON Ross Machine Co., SODO Park has been well maintained and repositioned with capital improvements. The property's historic aesthetics, location and upgraded infrastructure plays a large part in the property's on-going success.
- SODO Park is located south of Downtown Seattle in the SODO District. In the past, the SODO District has served as Seattle's primary industrial location due to its close proximity to the Port and Downtown Seattle. In recent years, SODO has converted into more of a mix of retail and office spaces while still preserving that industrial image.
- Creative and unique space with high ceilings and lots of natural light.
- Within minutes to nearby businesses, banking, restaurants, and retail services.
- Historic building close to the stadiums with artistic tenants.
- Zoned IG2 - permits uses such as: eating and drinking establishments, indoor sports and recreation, meeting halls, performing arts theaters, food processing and craft work, laboratories/research and development, offices, sales and services, vocational and fine arts schools, manufacturing, warehousing, and general storage.
